Reaching the Unreached...

INDEX

MESSAGE FROM THE COO

CHARU KAPOOR

The Year gone by...

The Pandemic exposed us to a very challenging but eventful year gone by. While the industry got hit and the school and formal education system slowed down, NIIT Foundation in the social sector got an opportunity to demonstrate its resilience in these difficult times. Many myths got challenged. Our target audience was always believed to be the last ones who could do technology-driven learning because of limited opportunity and exposure but the need of the hour was to be connected with them and connect them to learning, skilling, and livelihood. At NIIT Foundation we have been able to bring technology inclusion end to end. The entire CSR project life-cycle has evolved, especially after this pandemic. In CSR, we were always taught that human intervention is center stage. Now, technology has become center stage.

Reach

- Mobilization which was door to door and limited to a specific community has become technology-enabled and reach has increased. Therefore, we were able to reach communities, breaking barriers of physical distance and create larger impact possibilities.
- Online counseling has helped us to connect with the beneficiary parents and the need analysis now can happen immediately. The counseling is more effective since it gives the opportunity to address the needs and reservations of all decision-makers together.

Delivery

- We were able to migrate our complete delivery to an online and blended mode. We have been able to set up a LMS, which is an app-based solution. It can run in an offline mode as well. This helps the beneficiaries to access learning resources anytime and from anywhere, even when they do not have continuous connectivity.
- NF has been able to create effective self-learning resources to suit the learning needs of beneficiaries.
- There was a great effort towards capacity building of trainers to deliver online.

Livelihood Programs

- Many new courses aligned to the changing environment and industry scenario were introduced, some of them being digital marketing, data analytics, web development, health informatics, health insurance, nutrition, logistics, retail and inventory management, professional skills for work from home, app-based English speaking and more.

- We are skilling youth to make them employable in the emerging sectors- E-commerce, BPO, Digital Marketing, and Healthcare
- For providing livelihood opportunities we have created web and app-based platforms for student profiling, managing job fair logistics and post placement retention.

Data Management & Process Monitoring

- We have been able to organize overall functioning quite efficiently. Centralized database on cloud and student management systems can be maintained and accessed anytime, anywhere
- Technology helps large scattered projects to be better managed through many accounting apps such as Expending, where project-wise accounting can be maintained and funder-specific budgets can be monitored.
- Large scattered teams can share updates regularly, there is centralized reporting and visibility is better.

Monitoring & Evaluation Efficiency

- Simple technology such as smart usage of Google Drive has helped us in monitoring and evaluating all projects.
- Tracking beneficiary engagement through LMS- based learning.
- Automated reports and access to beneficiary progress are possible through our student management system.

Projects Delivered last year

Livelihood programs through Skilling for Youth were done PAN India for close to 20 K youth. We executed a STEM and Life skill project for close to 40K school children across 200+ schools to ensure learning continuity. Mass literacy programs of Digital and Financial literacy were delivered across 21 states for 8 lakh plus beneficiaries in the age group of 15 to 60 years. The Hole-In-The-Wall Learning Stations continued to connect with children in communities through its program 'Holiday-Masti.' We were able to deliver our unique Change Maker program online to help beneficiaries lead a productive life. The Change Maker Academy was launched to develop youth who have aspirations to further develop in domains where they have limited awareness.

Going Forward

NIIT Foundation this year wants to bring greater value to funders and continue cost-efficient project implementation. We also want to bring onboard our large network of NGO partners towards technology-inclusive skilling so that their reach increases. As technology is making the project execution cost-effective – helping scale with less cost and hence providing more value to the funders through larger impact is our key objective.

We are also looking at leveraging the strengths of our HIWEL setup inside communities to increase access for the beneficiaries who do not have device access.

For school children, NIIT Foundation plans to come up with innovative device access at doorstep models so that we can continue to make learning possible for the underprivileged.

We really want to take our Change Maker students and Change Maker Academy to the next level this year. We would like to leverage technology to manage larger projects scattered across geographies and large teams effectively.

ABOUT US

NIIT Foundation (NF) is a not-for-profit education society set up by the promoters of NIIT in 2004. Its mission is to positively impact the underprivileged of the country through educational initiatives and employability skill development programs. To achieve this, NF runs various grassroots initiatives in partnership with other corporates. We set up skill development centers in urban and rural areas that offer placement support to all eligible students. We provide digital and financial literacy programs. We also install Hole-in-the-Wall Learning Stations to bridge the digital divide. In addition, NF supports other NGOs to build their capacity. NF has been delivering projects ranging from customized CSR solutions as per partner requirements, school programs, college collaborations, community initiatives, and digital empowerment, which are mandated as per Section 135 of the companies act 2013. The projects reach out to a wide range of beneficiaries from the age group of 6 to 60 years olds.

NEW PARTNER SPEAK

LinkedIn India joins hands with NIIT Foundation to build skills in youth and together grow their careers
**Sanjukta Ghosh
Program Manager,
Social Impact/CSR - India,
LinkedIn**

in Social Impact

"NIIT Foundation is one of our new partners, although we have been in talks for a partnership for quite some time as I have heard good reviews about their team and work from many other corporate partners. Our partnership is aimed at skilling under served youth in new-age skills and guide them to explore new avenues of livelihood. The NIIT Foundation team has been very prompt right from the beginning of the partnership with regular follow up and updates. They have been able to meet the project delivery milestones so far and I'm optimistic they will exceed it as well. I'm looking forward to a multi-year partnership with this team."

OUR FRESH INITIATIVES

- Learning Management System (**LMS**), an app-based platform launched last year has been further strengthened for learning to happen from anywhere, anytime, ensuring quality.

- **HIWEL 2.0** has been launched. It offers a new generation user experience with a well-secured, web-based remote management system for Hole-in-the-Wall Learning stations, thereby ensuring quality and effectiveness.

- A **Re-skilling & Up-skilling Program** has been launched for people who have lost jobs in the pandemic and are looking to up-skill. It is a platform for many to restart their careers.

- For Hole-in-the-Wall Learning Station students, a special activity-based, interactive, virtual program titled '**Holiday Masti**' has been initiated. The sessions are fun, creative and build curiosity in children, keeping the HiWEL ethos intact.

- A very special project focusing on Digital literacy and job placement for a **Transgender community** has been initiated with our NGO partner in Delhi, thereby ensuring inclusive learning for all.

- Creating Change Makers is a key feature in all NIIT Foundation programs. This year, we took a step ahead by launching **A Change Maker Academy**. A platform to mentor youth who want to make a deep change and start a career in helping the larger community.

VOLUNTEER SPEAK

"*I am Kanishka Goyal. I am a first-year student at Jindal Global Law School. I volunteered with the NIIT Foundation in the month of January 2021. The experience was very enriching and insightful. A major part of my work included teaching students in the age group of 18-25 years.*

Even though we were all stuck at home and I did not get a chance to interact with them to face to face, my coordinator Ms Alpana made sure that I feel comfortable and tried her level best to help and guide me throughout the volunteer program. Everyone was very welcoming and reachable. I had a lot of fun teaching and interacting with the student virtually. It was incredibly rewarding to be able to help underprivileged students and know about them. Thank you NIIT Foundation for providing me with such an opportunity to learn and grow. I wish the entire team continued success."

Name: Preeti Sharma

"*I had a great experience with NIIT Foundation as a volunteer. I had taken a session with the students from Shiksha Career Development Center, Dankaur, UP. The session focused on developing their professional skills for a job. The students involvement and interest was appreciable. I found there to be a lot of positivity amongst the group. Shiksha Career Development Center is in a very remote area but it was encouraging to see so many girls in the batch. I want to take this type of a session again. I want to gather new learning, interact with students and gain success.*"

The importance of taking care of our physical and mental well being was the key point of discussion during this interaction. Interacting with each other was a reminder that we are all in this together and we can make the best of our situation. This meet was held to motivate employees and to instill a sense of peace and positivity in everyone.

IMPACT STORIES

Sameer Pohane, 29 Years
Wardha, Maharashtra
Financial Literacy Course

Anita Shah, 41 Years
Faridabad, Haryana
CCAB Course

Sameer used to work in a company, but his monthly income was not enough to meet his expenses. To increase his revenue, he wanted to setup up his own business. However, he did not have enough savings to initiate it. He chanced upon VIF's Financial Literacy Programme, Jaadu Ginni Ka, and attended the online training sessions. Conducted in partnership with Tejaswini Magasvargiya Shikshan Prasarak Mandal NGO, the training helped him understand the concept and importance of savings and investments. Sameer learned about various financial concepts such as principal amount, interest, and interest rate in detail. Now, Sameer can plan his finances on his own. He has started investing in mutual funds to earn dividends as a small addition to his income. He has invested in the Pradhan Mantri Jeevan Jyoti Bima Yojana, a life insurance scheme and Pradhan Mantri Mudra Yojana, which provided him with a loan to start his own business. In this way, Sameer has taken key steps towards securing his family's future.

Anita is married and has a child. She is a Maths teacher. She had no knowledge of computers. While everything was going well, not knowing computers became a big challenge when the lockdown was announced. All schools were shut. Anita was now expected to conduct her classes online, but she did not know how. During this time, Anita decided to pursue a computer course. There was no institute open at that time and she was not finding anything suitable. Her friend then told her about NIIT Foundation ATC Center in Nangla Gujral, Faridabad, Haryana. Anita enrolled for the CCAB course online. The course helped her to operate a digital device and learn computer basics. Now Anita is able to operate a laptop and lead her classes online. She said, "This course has really helped me, especially during the time of COVID. This course has allowed me to manage my personal and professional life. If I had not taken this on, it would have had an effect on my profession and family. I am so grateful for it. I now feel I can start conducting tuition classes online."

Course

Hema's father works as a supervisor in an export company and her mother is a homemaker. Hema has two younger siblings. Being the eldest, she feels a sense of responsibility to provide for the household. One day, Hema's friend told her about the ATC Center in Tigri, Delhi. She felt it to be the perfect opportunity that will enable her to enhance her IT skills and develop professional skills. She enrolled for the CLRIM – Program in Retail and Inventory Management Course. Hema shares, "My knowledge and my confidence has improved by attending the course. My trainer told me about workplace safety, security and much more. I am able to organize and I am able to prioritize better. I have learned about my rights and responsibilities and have become vigilant about keeping my surroundings clean. I try to help people by telling them about cleanliness and hygiene and how to prevent pollution. The trainers have motivated me to overcome my fear of speaking in public. I have developed digital and technical skills. Most importantly, I am now career-oriented."

Saurabh lives in Pirangut, Maharashtra with his family. The remote village he lives in is considered to be a disaster-prone area. Life, many a times has not been kind to him. It has been a constant struggle to make ends meet. Saurabh says, "I came to know about NIIT Foundation HCCB Career Development Center through a friend. I got hold of a leaflet and was interested to learn about the various courses and communication skills offered at the center. I felt I needed to develop my knowledge and skills in this area. I had also heard about the high success rate of the NIIT Foundation. I enrolled for the Web Development Course being offered at the center. I also involved myself in several activities and events organized at the center, which helped me flourish. Prior to joining the center, I did not know about the various sectors and what it's like to work in IT, Retail, Call Centers, etc. Most youth like me are clueless about how to enter the job market. I am lucky to have come across the center, as it really guided me in a positive direction."
